

Applications for inclusion on the SERICS Foundation's list of evaluation experts

November 21, 2023

Call for Expressions of Interest

The SERICS FOUNDATION has set up a “**List of Evaluation Experts**” **composed of** experts qualified in administrative selection procedures for Public Administration, in order to have professionals specialized in the field of bidding and/or selection procedures in public administration for the ex-ante, in itinere and ex-post evaluation of funding applications submitted in response to the cascade calls published by the SERICS EP.

The List is fed by collection of expressions of interest from experts who will send unsolicited applications in response to this Public Call and by invitation addressed to Public Administrations, which may propose candidates for this Call.

The duration of the List is concurrent with that of the SERICS Project.
