

Bruno Kessler. Cent'anni

November 25, 2024

Teatro Sociale to host, on December 10, Andrea Castelli's performance conceived and promoted by FBK and UniTrento.

To mark the centenary of Bruno Kessler's birth, on Dec. 10 the Teatro Sociale will host a **show** conceived by Fondazione Bruno Kessler and the University of Trento.

A free event celebrating Kessler's life, career and unbreakable bond with Trentino. Kessler never hid his humble beginnings, turning them into a strength to promote cultural and collective growth. His pioneering vision and sensitivity to the human and South Tyrolean question give us a portrait of a man who wove a piece of our history.

The performance, conceived and performed by the Trentino actor **Andrea Castelli**, will see the participation of the **Cantori da Verméi** choir, directed by maestro **Alberto Delpero**.

The event is free with reservation required, available [online](#) on the Centro Servizi Culturali S. Chiara's website, subject to availability.

Bruno Kessler: l'uomo, il politico, il trentino. This is how Fondazione Bruno Kessler and the University of Trento want to tell the story of their founder, through a show that recounts his life, anecdotes, career and the always strong and unrelenting bond with his region and its people.

Kessler never hid his humble origins; on the contrary, he made it a conscious starting point from which to activate a spiritual and cultural improvement aimed at empowering the community. His pioneering vision and sensitivity to the human and South Tyrolean question give us a portrait of a man who wove a piece of our history.
