FBK IS LOOKING FOR DIRECTORS FOR 3 OF ITS RESEARCH CENTERS

June 23, 2021

FBK HAS PUBLISHED THE CALLS FOR THE SELECTION OF 3 DIRECTORS FOR RESEARCH STUDY AND INNOVATION IN THE FOLLOWING AREAS: SENSORS AND DEVICES (FBK-S&D); EVALUATION OF PUBLIC POLICIES (FBK-IRVAPP); RELIGIOUS STUDIES (FBK-ISR). NEW Application deadline: 10 September 2021, 12 pm. Further information available at jobs.fbk.eu

The calls posted today aim to collect the expressions of interest of those who believe they can play a role of scientific and managerial leadership in a team game with high added value, at the FBK centers dedicated to:

- **Sensors and Devices** (FBK-**S&D**)
  The scientific strategy of the Center for Sensors & Devices is focused on the study, design, development and production of sensors, devices and microsystems using mainly the internal silicon structure. In this context, **Quantum Technology** will be one of the most important pillars of the center's future. Thanks to the strong skills of its 120 researchers and technicians and to its innovative facilities, the FBK-S&D center combines scientific excellence with the ability to enhance research results, applying a model of collaboration open to innovation within networks of national and international skills..
  https://sd.fbk.eu/

- **Evaluation of Public Policies** (FBK-**IRVAPP**)
  The Research Institute for the Evaluation of Public Policies focuses on the evaluation of public policies, the dissemination of the results of this research, the promotion of a culture of impact evaluation, the training of policy evaluators, the analysis of inequalities, and the development of micro-simulation models for the analysis of fiscal policies and their distributional effects. Research activities focus on **labor** policies, **education** policies, **industrial** policies, **welfare** policies and dynamics of socio-economic **inequalities**.

- **Religious Studies** (FBK-**ISR**)
  The Center for Religious Studies promotes research in the field of religion and theology with particular attention to the link between "**religion and innovation**" and to other key topics and issues related to other lines of research pursued in FBK.

These centers will indipendently implement the guidelines established by the strategic plan of the Foundation thanks to their financial endowment and the skills ensured by researchers, technologists, technical staff, doctoral students and other affiliate profiles.

The profiles sought for the director positions must include international experience and advanced scientific and/or managerial qualifications, as well as a proven network of relationships in the communities of their domains of reference.

Expressions of interest, which will be screened by an Evaluation Committee appointed by the Foundation's Board of Directors, must be submitted to https://jobs.fbk.eu/ **by 30 July 2021, 12pm**, in the form of a written proposal.

An up-to-date CV must be attached to the proposal, listing the relevant publications and/or other research and development products of any kind, the scientific and managerial background of the candidates and their network of relationhips in the communities of reference.

To learn more about the Foundation and its research and study areas, candidates can request for a meeting to be arranged before the application closing date.

All the details and the full text of the call are available on the following pages:
