

On the frontline of fight against child cancer

May 12, 2017

Two meetings: one with Ospedale Bambino Gesù in Rome, and one with the Proton therapy Center in Trento

Monday, May 15, 2017, from 4 pm to 6 pm, a conference in Trento on the collaboration between the two institutions.

The following day, Tuesday, May 16, a scientific seminar dedicated to the Trentino healthcare system.

There will be two opportunities for in-depth exploration devoted to pediatric oncology and organized by Fondazione Bruno Kessler, through their "[FBK for Helath](#)" program and by the Province Healthcare Services System.

Monday, May 15, at 4.00 pm, at the Aurora Hall of Palazzo Trentini on G. Mancini street in Trento, representatives from **FBK, APSS, the Proton Therapy Center and Ospedale Bambino Gesù of Rome** will discuss the synergy between the two care centers.

The round table entitled "The support community: the role of associations and volunteering" will focus on the services that out-of-Region families are provided with and on the illness experience. Radio host **Gabriele Biancardi** will talk with some **parents of children currently receiving treatment at the Bambino Gesù Hospital and the Proton Therapy Center in Trento**, and with **LILT** (Italian League against Cancer), **ABIO** (Hospitalized Child Association) **Team FCC** (Team Fausto Coppi corse), **Valdaone ti sorride** (project of the Municipality of Valdaone in collaboration with LILT), the **Archdiocese of Trento**, the Trento **Centro Auser** and **Associazione 27 giugno**, which contribute to the creation of a family support network.

The next day, Tuesday, May 16, from 9 am at the Proton Therapy Center on 14, Al-Desert Road in Trento, researchers, doctors and experts from the two institutions will present study activities and innovative treatments on some pediatric tumors applied in the two centers Of care.

A guided tour of the Proton Therapy Center has been scheduled for noon.

NOTE

The conference on Monday, May 15 is **free and open to the public**. The meeting on May 16, ("The multidisciplinary experience in pediatric cancer treatment: the neuro-oncology case") is primarily dedicated to the Trentino healthcare system employees and to physicians-in-training enrolled in the Trento School of General Medicine.

Program of the "FBK for Health" event
